PASADENA IS PREPARED FOR YOU...

At the Pasadena Convention Center, we are dedicated to providing a safe space to bring people together. We have taken measures to establish more stringent cleaning and disinfecting, as well as safety best practices to support the health and wellness of everyone that visits our venue.

On July 23, 2021, the Pasadena Public Health Department (along with Los Angeles County) issued a mandate that all persons must wear a mask in all indoor public settings, venues, gatherings, and public and private businesses regardless of vaccination status. Guest Services staff will be stationed throughout the venue monitoring people going into the meeting rooms and the Exhibit Hall and will ask guests to put on their mask (or adjust it properly) when necessary. We appreciate attendees abiding by this friendly reminder for a safer environment for everyone.

Subject to California Department of Public Health (CDPH) requirements and recommendations issued on August 18, 2021, indoor events under 1000 attendees do not require attendees to verify to be fully-vaccinated against COVID-19 or test negative for attendance.

LET’S ALL DO OUR PART

WASH YOUR HANDS
Wash hands often or use hand sanitizer that contains at least 60% alcohol

WEAR A MASK
Cover mouth and nose with a mask

STAY AT HOME
Stay at home if you are feeling sick

The Pasadena Convention Center and Civic Auditorium are committed to the health and safety of our clients, guests, employees, and community. We are looking forward to welcoming you back and we are prepared to be your safe meetings destination.

The Pasadena Convention Center has received the GBAC STAR Facility Accreditation, which ensures the Convention Center and Civic Auditorium are implementing the industry’s highest standards for cleaning and disinfection of infectious agents like the novel coronavirus, including:

- Cleaning crews have increased cleaning frequency with special attention provided to high-touch areas (door handles/push plates, elevators, handrails, windowsills, etc.)
- Use of color coordinated microfiber cloths to eliminate cross contamination in high-touch areas
- Use of electrostatic/disinfectant sprayers
- Enhanced air handling filtration system
- Hand sanitizer dispensers strategically placed throughout the building in high traffic areas
- State, local, and CDC recommended health & hygiene reminders/signage placed throughout the facility to remind guests and employees of appropriate PPE, proper handwashing, respiratory etiquette, and physical distancing requirements
